

# LE1250

A generous, linear fireplace, designed for expansive walls and open plan spaces, delivering a bold, continuous wall of flame.

## INBUILT HOLOGRAPHIC ELECTRIC FIREPLACE

### Unmatched Realism

Holographic technology combined with precision flame-mapping projects dynamic flames, sparks, and flickers onto lifelike logs and embers - recreating the depth, movement, and authenticity of a real wood-burning fire.

### Installation Flexibility

No flues, vents, or consent required – offering complete freedom to install anywhere and integrate seamlessly into any surround material or design.

### Effortless Ambiance

This fireplace delivers warmth when needed, or ambiance with flame-only mode – giving you year-round flexibility and effortless control.

| DATA BADGE                         | Inside appliance, upper left corner                  |

## DIMENSIONS

|                |                                     |
|----------------|-------------------------------------|
| FIREPLACE SIZE | 51 1⁄16" w x 21 1⁄2" h x 17 3⁄16" d |
| FRAMED OPENING | 52 1⁄2" w x 21 7⁄8" h x 17 3⁄4" d   |
| VIEWING AREA   | 49 7⁄16" w x 16" h                  |
| TV CLEARANCE   | 4" above viewing area               |

## INSTALLATION

The LE1250 is an indoor holographic projection fireplace designed to be built into a false cavity - from standard building materials.

The appliance is to be installed prior to any wall linings or finishes.

For optimal viewing, the LE1250 base should be 12" above the floor.

Wall linings or finishes can be of any thickness, and any standard building material may be used. If finishes extend beyond the 9/16" viewing area trim, consider the visual impact of the material edge.
