Linear Direct-Vent Fireplaces

# Boulevard

## BIG, BOLD, BOULEVARD.

The Boulevard series of linear fireplaces offers multiple sizes and design options, allowing it to seamlessly fit into any space. Available in 36, 48, 60 and 72-inch models, the Boulevard can accommodate anything from a small living room to a large commercial building. Personalizing the fireplace is a breeze thanks to the available liner, logs and front options.

### Boulevard 72

The Boulevard 72 is the largest in the Boulevard line-up with an impressive 72-inch by 15-inch viewing area. It is sure to be the focal point of any room. The fully recessed burner fills the fireplace with a tall, lively flame. The multi-color LED underlighting can be set to just the right color for any occasion. Transform from a clean, modern linear fireplace to a more traditional fireplace with the addition of the rustic or driftwood log set. Add one of the optional decorative fronts, available in multiple finishes, will help you tie the fireplace into the surrounding room's décor.

# Boulevard 60

The Boulevard 60 features a large 60-inch by 15-inch viewing area that is filled with a fully recessed burner to give unobstructed views of the lively fire. The white halogen underlighting can easily be adjusted utilizing the included remote control, offering six levels of intensity. The remote also functions as a thermostat and can control the optional blower if installed. Choose an optional liner, log, or front to personalize the Boulevard 60 to any room.

## HEAT MANAGEMENT

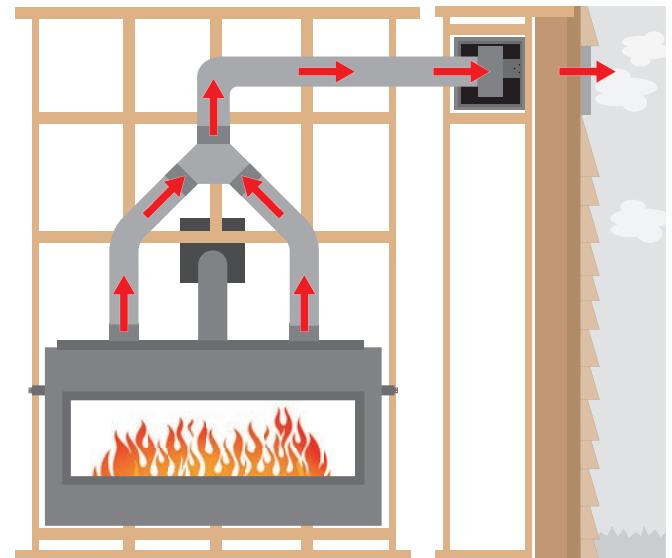

### Interior Gravity Air Kit

It's only natural to want to add a TV above a Boulevard fireplace as it is the focal point of the room. With the addition of the gravity air kit this can now be safely accomplished. The gravity air kit naturally moves the heat being produced by the fireplace through ducting behind the wall to a discharge near the ceiling, reducing the wall temperatures above the fireplace. A TV or mantel can then safely be installed as low as 16" above the fireplace opening.

### Exterior Forced Air Kit

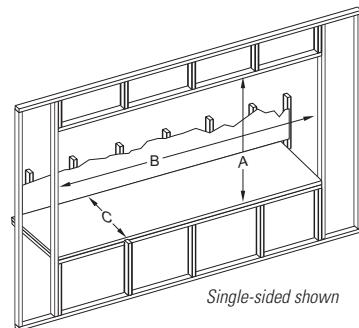

Enjoy the ambiance of the Boulevard series of fireplace no matter the season. Easily control the amount of heat entering the room utilizing the forced air heat management kit. An exterior mounted fan pulls heat being produced by the fireplace and moves it to the exterior of the home.
