Celebrating the Rich Heritage and Pioneering Spirit of KENTUCKY

Bring the timeless allure of the Bluegrass region into your home today and transform your home into a warm and inviting haven filled with style and history.

Our Process

BORN IN THE
BLUEGRASS

Our mantels are handcrafted in Lexington, Kentucky, and ship in a matter of days—not weeks—due to our sophisticated manufacturing.

- 1 INSPIRATION**
We recover antique beams salvaged from historic Kentucky barns, farms, and cabins. Then, we create molds to preserve every crack, check, and detail.
- 2 CASTING**
Using our innovative casting techniques, we precisely form each non-combustible mantel in Burncrete.™
- 3 PAINTING**
Finally, our skilled artists hand-paint every piece, achieving a level of color and textural realism that brings the material to life.

SHADOW ROLL FLAGSTONE

Dry-stacked stone fences lining the roads and byways in Kentucky are a beautiful testament to the Scotch-Irish farmers' ingenuity in dealing with the land's abundant limestone.

The stones from a Maysville farm were used to craft our Shadow Roll Stone Fence mantel, continuing a tradition of ingenuity passed down through generations.
