PAYING TRIBUTE TO OUR KENTUCKY HERITAGE

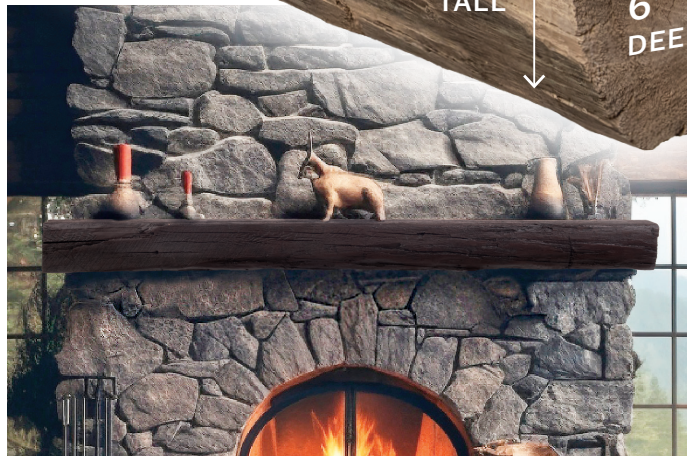

CABIN PINE

PALE HONEY

6" TALL

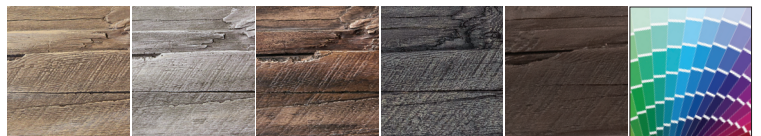

6" DEEP

Early settlers in Kentucky built primitive cabins as temporary shelters to survive the harsh conditions of the frontier. While most of those cabins didn't withstand the test of time, our Cabin Pine mantel acknowledges their struggle to tame the wilderness and use the resources around them to put down roots.

ASTM E136 CERTIFIED NON-COMBUSTIBLE

 HAND-CRAFTED IN THE USA.
